## **Citation CJ2+ Joins Fleet** **More Speed. More Room. More Range.**

**KENNESAW, GA – September 2, 2008** – FlightWorks, a leader in aviation services, announces the addition of a new, Cessna Citation CJ2+ to its diverse business jet fleet. This Southeast-based aircraft provides plenty of room for eight passengers to relax in sumptuous leather seating amid a handsomely-designed and bright interior. Numerous windows and LED indirect lighting focus attention on the luxurious cabin with rich wood cabinetry, mini galley, private lavatory and ample storage space. The sleek exterior of this new, managed aircraft is enhanced by the unique, new, laminar-flow wings and two powerful, fuel efficient Williams FJ44-3A-24 engines providing 2,490 pounds of thrust.

“The addition of this new light jet to our fleet means that FlightWorks customers will benefit from the luxury and comfort typically associated with larger jets and a level of efficiency formerly associated with turbo props,” states Ron Smith, Vice President of Business Development. “We’ve seen an increase in regional light jet demand, and this aircraft, with its speeds of up to 481 mph, range of 1613 nautical miles (1856 statute miles), and its ability to climb to 45,000 feet to cruise above turbulent weather, offers an exceptional and efficient package at an economical hourly rate.”

FlightWorks diverse fleet provides charter clients the most effective and efficient aircraft selection based on their travel requirements. FlightWorks operates private executive facilities and business jets in major markets across the United States where it offers executive charter, aircraft management and aviation consulting to corporate executives, business owners, high-net-worth individuals and government agencies. The company specializes in on-demand charter with flexible scheduling, uncompromised safety and personalized customer service.

Based on the company's continued focus on customer service, safety and reliability, FlightWorks has earned nationwide recognition and several awards. FlightWorks, an ISO 9001:2000 certified company, highly prioritizes safety, and its efforts have earned the company ARG/US "Platinum" and Wyvern-recommended status and Department of Defense certification.

The headquarters office is located at 500 TownPark Lane, Suite 350, Kennesaw, GA. with private, executive terminals in Atlanta, GA, Washington, DC, Denver, CO and Jacksonville, FL. metropolitan areas, as well as additional charter operations throughout the Southeast, Mid-Atlantic, Central, and Western United States.
